Long-term Employment Trends

Dairy farms correspond to code 112120 or “Dairy Cattle and Milk Production” sector in the North American Industrial Classification System (NAICS). This industry comprises establishments primarily engaged in milking dairy cattle. However, there are no time-series data on employment for this economic sector in the Economic Modeling Specialists (EMSI) database. As a proxy, we use NAICS code 311511 or “Fluid Milk Manufacturing” sector. This U.S. industry comprises establishments primarily engaged in (1) manufacturing processed milk products, such as pasteurized milk or cream and sour cream and/or (2) manufacturing fluid milk dairy substitutes from soybeans and other nondairy substances. This dairy industry generated 371 jobs in 2014 with annual earnings averaging \$44,794, about 63 percent of the national earnings of \$70,925.
